LAST WORD TO VOTERS.

That the entire Republican county ticket will be elected today is conceded privately by well-informed Democrats; but they hope the pluralities will be small, so they can claim a moral victory for Bryanism and free silver. It rests with Republicans to cancel this hope and clinch for years to come Republican supremacy in Lackawanna county by getting out the complete party vote. Rout out the stay-at-home line up the waverling. Let's make this victory a stunner!

Davis, Evan Gabriel and James S. Thomas. MINOOKA.

Today will dawn on one of the hottest days of the season. The weather element is red hot in the praises of their favorites. The Democratic ranks appear to be hopelessly shattered, as a large number have openly signified their will-

ingness to rally to the support of the Republican ticket. From present indications T. D. Maschaff's "broom" will be very much in evidence Wednesday morning. The members of the Daniel O'Connell council, Young Men's Institute, are making extensive arrangements to make their entertainment on Nov. 25 a howling success. Much interest is centered in the coming live bird shooting match between Higgins and Mangum, two local Nimrods, which will be decided on the grounds near the cemetery on Thanksgiving Day. The friends of E. B. Campbell are booming for candidacy for the supervisors'hip in the Southwest district. Mr. Campbell is a practical good roads advocate and possesses the qualifications to make a creditable schemer.

SALE OF THE UNION PACIFIC

The Purchase of a Fifty-Seven Million Dollar Property a Very Timely Transaction Indeed.

Omaha, Neb., Nov. 1.—The Union Pacific road property, including the buildings and all that goes to operate the system, was this morning sold to the reorganization committee for the sum of \$57,564,327. This amount does not include the sinking fund in the hands of the government, and taking this to be \$4,000,000, the amount stated in the government report is \$61,564,327. The great work done by the committee of the road, the total paid for the property was \$57,564,327. There were no other bidders and the road went to the reorganization committee without any opposition.

The sale of the road was in itself one of the largest and most uninteresting performances possible to imagine. Under the terms of the sale, the purchasers have ninety days in which to pay over the amount of the purchase money, and that part of the transaction will be carried out in New York in the future. The government is now making sinking funds of the road and the amount of the guarantee check put up by the reorganization committee. This is just about 10 per cent. of the full purchase price of the road.

The members of the committee had nothing to say after the sale was over. They are now making arrangements to issue the sinking fund. It is possible that the committee might have a statement to issue later on. But just now they are certain whether it would be issued or not.

OUR PUBLIC DEBT.

Figures Shown by the Last Statement.

Washington, Nov. 1.—The monthly statement of the public debt shows that at the close of business on Oct. 30, 1897, the debt, less cash in the treasury, amounted to \$1,000,000,000. The increase for the month of \$4,418,188. This increase is principally accounted for by a decrease in the account of cash on hand. The debt is composed of the following items:

Interest bearing debt, \$87,355,500; debt on which interest has ceased since maturity, \$1,331,500; debt bearing no interest, \$2,000,000; United States bonds, \$1,000,000,000; however, does not include \$89,456,552 in certificates and treasury notes which are held by the public by an equal amount of cash in the treasury.

The cash in the treasury is classified as follows: Gold, \$19,357,275; silver, \$29,500,000; paper, \$114,000,000; disbursements officers' balances, etc., \$18,480,726; total, \$231,938,001, against which there are demand liabilities amounting to \$65,913,877, leaving the net cash balance in the treasury \$267,124,069.

THE SEALING TREATY.

Agreement Between Russia, Japan and This Country to be Signed.

Washington, Nov. 1.—It is expected that a treaty or convention between the United States, Russia and Japan will be formally signed and executed at the State department during the present week, carrying out the proposition before the Behring Sea conference, for a suspension of pelagic sealing. The present understanding is that the signing of this document will occur within the next few days. It will represent the completed efforts of the conference, and with the signing concluded the conference will adjourn.

The terms of the treaty or convention will follow the lines of the proposition considered by the conference and referred with favorable recommendation to the authorities at St. Petersburg and Tokyo. Doubt existed as to the acceptance of the Russian authorities, and it can now be stated positively that the Japanese government has approved the proposition and the Japanese delegates are prepared to place their signatures to the treaty.

This clears away all obstacles and little remains to be done beyond the formalities attending the signing of such an instrument. The essential feature of the treaty or convention is for the suspension of pelagic sealing for such a period as will permit the seal herd to revive. The period of this suspension is not specified. One report is that it will be for one year, subject to extension. Another is that it will cover a term of years. But the exact duration of the suspension cannot be verified.
